

## **TAHI SMART BUILDING GROUP**

**6<sup>th</sup> November 2011**

**10.15 – 13.00**

**BRE Bucknalls Lane, Watford, [WD25 9XX](#).**

(Note that by Car using Satnav, set destination to WD25 9NH)

**Chairman – Mike Perry – BRE.**

These meetings look at how home systems, technology and broadband connectivity will influence the homes we live in and as importantly what the opportunities are for the building industry in the modern built environment and the existing building stock.

Smart Cities and the homes in them are becoming a major area of interest to Government as is the issue of there being multiple interoperable systems across smart.

We are aware of the Green Deal and the Localism Bill and it will be useful to gain first hand, information of what these will mean to industry. Do builders, planners, architects, social housing providers and suppliers understand the implications?

### **AGENDA**
